PROJECTS

Portfolio Website

Built portfolio website using HTML5, CSS3, Java Script and GIT. Deployed using netlify with domain jayakrishna42.online.

Isolated DC microgrid

Jul 2020 - May 2021

In this project, I have developed a DC microgrid in MAT Lab software. All the electrical components have been designed mathematically and simulated in MATLAB successfully.

Smart controller for motor

Dec 2019 - May 2020

I have developed a DC motor mobile controller by using a basic SMS system, programmed Arduino Uno board using Arduino software and GSM module and motor driver to receive signals and control.

POSITION OF RESPONSIBILITIES

Team Lead (Finance Committee)

Jul 2018 - May 2020

As a team lead of the 40 members, I am accountable for all the financial transactions that will take place in the college events. My committee is solely responsible to collect all the participation fees and rents from various outlets and distributing all the prize money for the participants. Working with the committee improved soft skills and multi-tasking ability.

Member (National Service Scheme)

Jul 2017 - May 2021

I have actively organized and participated in many events and campaigns such as Swatch Bharath, plantations and seven days special Camping program.
